

Winterization Price Guide 2025

Sailboat Mast Storage and Removal

| Mast Storage Options | | |
|--|---|--|
| Store boat with mast up. This is the most cost-effective option, available to outside storage customers only. Removal of the mast head instruments is recommended to ensure that they remain protected from the harsh winter conditions. | Deck Storage This option is only available for boats up to 35 feet, with a requirement that the mast does not extend more than 2 feet over each end of the boat. Support horses are provided where needed and mast is secured to boat. Removal of the mast head instruments is recommended if stored outside. | Indoor Storage Store your boat's mast in our dedicated mast storage building for maximum protection. This storage option is required if you are having your mast serviced during the off-season. |

| Boat Length | Remove Mast Store on Deck Up to 35' | Remove Mast Store Inside | Rod Rigging (Service Charge) | Furling Gear Remove, Store & Reinstall | Remove Mast Only | Haul Out or Launch Boat |
|--|--|--------------------------|------------------------------|--|------------------|-------------------------|
